The City of Prescott Moonlight Movie Nights at Ken Lindley Field have extended their cancellation through at least August 14, due to ongoing COVID-19 concerns.

“We will continue to monitor the situation, with hopes of starting the movies back up as soon as possible,” said Recreation Services Director Joe Baynes.

The City also announced that all sporting tournaments and special events on City property will be cancelled between now, and until at least August 16. Recreation Services will continue to monitor the Governor’s executive orders, and will remain in consultation with Yavapai County Community Health Services and City leadership.
