

PRESCOTT HIGH SCHOOL SHED CATCHES FIRE - PRESCOTT FIRE DEPARTMENT

Posted on May 28, 2023 by Craig Schmitt, Prescott Fire Engineer/Paramedic, B-shift

Public Information Officer | Prescott Fire Department

Approximately two hours prior to the 2023 Graduation ceremony, the Prescott Regional Communications Center received a call regarding smoke billowing from a shed at Prescott High School threatening adjacent classrooms. Engines from the Prescott Fire Department and Central Arizona Fire and Medical Authority responded to the scene.

Engine 51 was first on scene, forcing entry and quickly extinguishing the flames with an extended hose line. The fire extended into the structural members of the shed, but did not cause damage to the neighboring buildings.

A fire investigator from the Prescott Fire Department arrived on scene with the results of the investigation still pending.

The members of the Prescott Fire Department would like to congratulate the CLASS OF 2023!
