

# YAVAPAI COUNTY PREPAREDNESS TEAM: HANDGUN PROBLEMS AND TIPS

Posted on June 24, 2023 by Jim Arroyo, President | Yavapai County Preparedness Team

Jim Arroyo, President of the Yavapai County Preparedness Team, discusses the various problems and tips of using an automatic 9 millimeter pistol.

When a gun is fitted for a person, they need to be able to reach the trigger, and have the strength to pull back the slide of the gun. Guns need to be cleaned and lubricated to work properly. Jim discusses dry firing, and that practice is needed to learn how to properly use handguns. He goes over how to empty the gun in order to put it away, how the safety works, and the magazine.
