

YAVAPAI COUNTY SHERIFF'S OFFICE WEEKEND ROUNDUP FOR AUGUST 21, 2023

Posted on August 22, 2023 by Kristin Greene, Public Affairs and Government Relations

Director | YCSO

24 Pounds of Fentanyl now off the Streets

On Friday August 18th, a YCSO K-9 unit conducted a traffic stop on I-17 in the Cordes Lakes area. Inside the vehicle they located a bag containing 24lbs of fentanyl pills. The suspect was arrested and charged with multiple drug charges.

Man Arrested for Indecent Exposure - to a YCSO Deputy

On Friday August 18th, YCSO arrested a man for exposing himself to none other than an off-duty YCSO deputy. YCSO responded to a report from the off-duty deputy who reported that he, his girlfriend, her kids, and her sister observed a male subject peeing in the middle of Orme Rd. The man then walked over to the off-duty deputy's vehicle with his pants still down.

The off-duty deputy called YCSO dispatch to report the incident and advised them that the male subject left in his car heading south on I-17. Responding deputies found the vehicle crashed into a construction vehicle on I-17 at the Bumble Bee exit.

40-year-old Leo J. Tocchini was arrested for indecent exposure and DUI.

Deputies Save Life of Man Overdosing in Bathtub

On Saturday August 19th at 10:45 pm YCSO deputies were dispatched to a location on S. State Route 69 in Mayer in reference to a 911 call with the caller screaming for someone to wake up.

Two deputies were close by at the time of the call and luckily had an extremely fast response time. They arrived on scene and located a 43-year-old man overdosing in the bathtub. The man was unresponsive, and deputies located fentanyl paraphernalia in the immediate area around the man, along with a lighter still in his hand. Deputies also located approximately an ounce of methamphetamine and a small bag full of unknown pills that were in the immediate area of the bathtub.

The deputies administered NARCAN and after 4 doses, the victim was still unresponsive. Deputies were able to lift him out of the bathtub and attempted a sternum rub, but there was no response to the pain stimulus. The man then stopped breathing and had no pulse. Deputies began CPR and administered more NARCAN. The deputies were able to get a pulse back and the victim began very shallow

breathing.

Deputies then moved the victim outside so the Mayer Fire Department could take over medical care. Deputies administered a total of 10 doses of NARCAN. Mayer Fire transported the man to YRMC-E. At the time of being transported he was alert, breathing, and talking with the fire department.

The fast thinking and actions by the two YCSO deputies unequivocally saved the man's life, and they are to be commended.
